Andover, MN 55304

WHAT ARE THE FEES? WHAT AM I PAYING FOR?

League Dues: Our league has a \$90 fee for joining. \$60 of that fee goes to our tee time scheduling & electronic scoring program as well as the league and events we put on. Events could be banquets, special events, trophies etc. The remaining \$30 of that fee goes towards your membership with the Minnesota Golf Association (MGA) to establish and maintain your handicap with them.

Golf Bank: This is your personal bank account with the league. You deposit a certain dollar figure at the beginning of the season. Each week, funds are taken out to put towards the events. If you win during an event, the funds are deposited into your golf bank. At the end of the year, the treasurer will give back all of the money in your bank.

Example:

- At the beginning of the year, you decide to deposit \$44.00 into your golf bank.
- The first week of league costed \$7.50
 - \$5.00 for the event (which is a mandatory fee to participate)
 - You decided to participate in 2-Club (\$2.00)
 - And you decided to participate in Chip in (\$0.50)
- \$7.50 was deducted from your golf bank making your new golf balance \$36.50.
- A few days later you discover you won a skin. The skin was worth \$2.00.
- \$2.00 is added back into your bank account making your new golf balance \$38.50.

Hole In One Insurance: This pot has been growing for years and it only costs you \$1.00. Each member pays \$1.00 towards this pot (optional). Whoever gets a hole in one on league night, wins the entire pot less that year's contributions. Currently the pot is over \$2,000!

Ringer Board: This is a great way to have a side bet with yourself to see how you improve throughout the year. The cost is \$5.00 per member (optional.) You start with your first round of the year. That is the score you want to beat, hole by hole. Any time you shoot better on a hole during league, we will update your score. By the end of the year, we will complete the best score you had on each hole and calculate who has improved the most. We then take the Ringer board pot and payout the most improved players.

Events: Each week our league charges \$5.00 per player to play in the event that week. That \$5.00 goes towards skin payouts and winners in each flight.

2 Club: This fee is \$2.00 per week and if you enter once, you will enter every week that you play. 2-club is paid out for holes that you simply used 2 clubs and received a score of '2' – if you manage to do so, you win the pot! This pot can grow week to week if we have no 2 club winners and we could also have multiple winners that will split the pot.

Chip-in Pot: This fee is \$0.50 per week and if you enter once, you will enter in every week when you play. Chip in is paid out for holes that you chipped in. Putting from the fringe also counts! If you manage to do so, you win the pot! This pot can grow week to week if we have no chip in winners and we could also have multiple winners that will split the pot.

Skins: Each golf hole represents a skin. If you shoot the lowest score on that hole out of everyone in your flight that night, you won a skin. Skin values differ each week due to the amount of skins won. Skins are not given out on every hole if there is a tie between two players.

Example:

- On hole 13 everyone in your flight shot a 5 or higher but you shot a 4. You won a skin on hole 13.
