EVENT DETAILS

Low Net:

Individual event

Your total score minus your handicap.

Example: You play 9 holes. Your handicap is 15 and you shoot 50 – your Net Score is 35.

Cha Cha Cha:

Team event for a team score

On the first hole, take the lowest net score out of the four players. This will be the Cha. On the second hole, take the two lowest net scores out of the four players. This will be the Cha Cha. On the third hole, take the three lowest net scores out of the four players. This will be the Cha Cha Cha. Repeat the process on the fourth hole, starting with the single low net score.

Stableford:

Individual event

Take your net score on each hole, and apply a point value to it.

Eagle = 4 Points

Birdie = 3 Points

Par = 2 Points

Bogey = 1 Point

Hole Number	1	2	3	4	5	6	7	8	9	TOTAL
Par	4	5	4	3	4	3	4	4	4	35
Player A	5	4	7	4	2	3	5	6	4	40
Handicap Strokes	•	•	•	•	•	•	•	•	•	9
Low Net Score	4	3	6	3	1	2	4	5	3	31
Stableford Points	2	3	0	2	4	3	2	1	3	20

Net Score on Blind 5: Individual event

Total net score on 5 holes drawn randomly at conclusion of play.

Mystery Golfer: Team event for a team score

Each person plays their ball as a normal round. When you get to the next hole, there will be a number on the tee box. The number on the tee box will be matched to a player on the scorecard. You will use that player's score for the hole you just completed.

Example:

Players A,B,C & D all play their own ball on Hole 1.

1st Player A had a net 5

2nd Player B had a net 4

3rd Player C had a net 6

4th Player D had a net 5

When the group gets to the tee box on hole 2, there is a stake with the number 4 on it. The team will use player D's score for hole 1.

Lone Ranger:

Team event for a team score

Two scores will be used to create a team score for each hole. On each hole, one player is designated as the Lone Ranger as identified on your scorecard. You will use the 'Lone Rangers' score for that hole along with the lowest net score of the remaining players and combine them for a team score on that hole.

Example:

Hole #1 – Lone Ranger is player C.
Players A,B,C & D all play their own ball.
Player A had a net 5
Player B had a net 4
Player C had a net 6
Player D had a net 5
Lone Ranger (Player C) had a net 6.
The lowest score of the remaining players (Player B) is 4.
The Team score for Hole #1 is a 10.

Top Bottom:

Two player team event for a team score

All players within each flight are listed in order from lowest handicap to highest handicap. The player with the lowest handicap is matched with the player with the highest handicap and they play as a team using the lowest net score between them as the team score.

PLAYERS	PARTNERS / TEAMS
A	A & F
B	B & E
C	C & D
D	
E	
F	

EVENT FEES & SIDE BETTING

EVENTS: Each week our league charges \$5.00 per player to play in the event. \$3.00 goes towards the event itself and \$2.00 goes towards skin payouts.

2-CLUB: The fee is \$2.00 per week. If you sign up for the 2-Club at registration, you are entered every week you play. 2-Club is paid out for holes that you used only 2 clubs and received a score of '2'. The weekly pot is split among the winners for the week. If no one gets the 2-Club for the week, the pot carries over until there is a winner.

CHIP-IN: The fee is \$0.50 per week. If you sign up for the Chip-In at registration, you are entered every week you play. Chip-In is paid out for holes that you chip in. Putting from the fringe counts! The weekly pot is split among the winners for the week. If no one gets the Chip-In for the week, the pot carries over until there is a winner.

SKINS: Each hole represents a skin. If you shoot the lowest NET score on that hole out of everyone in your flight that night, you win a skin. Skin values differ each week depending on the number of skins won. Skins are not given out on holes where there is a tie between two or more players.

NET SCORE: Your total score minus your handicap.

HANDICAP: Also called 'handicap strokes' or 'bumps'. After you have played at least (3) 18-hole rounds or (6) 9-hole rounds, you will be given a handicap index from GHIN. That index is then used to calculate your handicap on any course.

Example:

Your established handicap for RRH is 25 for 18-holes.

You receive 25 'handicap strokes' or 'bumps' while playing 18-holes.

You receive these strokes on the 25 hardest handicap holes.

HOLE	1	2	3	4	5	6	7	8	9	FRONT TOTAL	10	11	12	13	14	15	16	17	18	BACK TOTAL	TOTAL SCORE	HANDI CAP	LOW NET SCORE
